3110 and 3120 Upright Vacuum Cleaners

U.S. AND CANADIAN NEW MACHINE WARRANTY POLICY

Our Commitment to Customer Satisfaction

The warranty terms outlined below are in lieu of any other warranties, either expressed or implied, including any implied warranty of merchantability, fitness for a particular purpose or otherwise. Under no circumstances will seller be liable for any loss, damage, expense or consequential damages arising in connection with the use or inability to use, these products.

This warranty does not apply to damage or defect caused by accident, misuse, negligence, abuse, fire or to any Tennant product that has been serviced by anyone other than an authorized Tennant service representative. Housings or parts that have become damaged as a result of improper use of the machine are excluded from this warranty. Refer to Owner's Manual for proper machine use and maintenance. Parts that are expected to wear from normal use and, therefore, are not covered under the warranty include: handle, wheels, brush; filters; nozzles, hoses, switch, paper bags, power cord and motor carbon brushes.

This warranty commences on the date of purchase of the product by the original end user from an authorized Tennant sales representative, subject to proof of purchase. **A Machine Warranty Registration and Survey Reply Card included with the Owner's Manual must be completed and returned immediately at the time of purchase.** If proof of purchase date is unavailable, the warranty begins 90 days after the sale of the product to an authorized Tennant dealer.

Subject to the conditions outlined above, Tennant warrants the 3110 and 3120 models to be free from defects in materials and workmanship under normal use and service for one year, and further warrants, on a limited basis for three years, the belts and electric motors not subject to wear, to the original buyer. Electric motors subject to carbon brush wear, their durability depends on the numbers of hours of use and on the established substitution of filters. It does not depend on the years of life of the machine. The eventual substitution of the motor under warranty will therefore be effected only in case of production defect (this has to be verified by an authorized Tennant service center) and not in the case of total wear.

Parts replaced under this warranty are guaranteed for the remainder of the original warranty period or 90 days, whichever comes first, to the original end user.

Date Purchased: _____
Model Number: _____
Serial Number: _____

Please make sure to record this information. This information will be necessary for future warranty claims.

Tennant reserves the right to change its warranty policy without notice.
