

Ready-To-Use

# SCORCH PLUS RTU

## Vegetation Killer

Designed to control annual and perennial broadleaf weeds and grasses, this non-selective herbicide effectively kills and controls several forms of vegetation. It works by both direct contact and root penetration. Convenient and easy to use, no mixing is required with this ready-to-use herbicide. Be careful not to apply this product near the drip line or root system of trees.

## Uses

- Around buildings
- Drainage ditch banks
- Fence lines
- Fuel tanks
- Guard rails
- Pipelines
- Rights-of-way
- Storage areas

## Benefits

- Convenient - No mixing required, ready-to-use from container.
- Nonselective - Provides total kill, from the plant tops to their roots.
- Fast acting - Effective, even against hard to control perennial weeds and grasses.

## Properties

Color .....	Amber
Flash point .....	140° F
Fragrance .....	Characteristic
Freeze/thaw stability .....	3 cycles
Residual action .....	Excellent
Specific gravity .....	0.81 - 0.82
Viscosity .....	5 centipoise
Shelf life .....	1 year
<b>ACTIVE INGREDIENTS:</b>	
Prometon 2,4-bis (isopropylamino)-6-methoxy-s-triazine .....	1.50%
INERT INGREDIENTS .....	98.50%
TOTAL .....	100.00%

## Acceptance

Registered with the U.S. Environmental Protection Agency.  
EPA Reg. No. 4170-56.

## Available In

Pail/5 Gallon (18.9 L): #35105-00  
Drum/55 Gallon (208 L): #35155-00

Literature Item #35192-92

Authorized Betco Distributor

## Directions For Use

Read the entire label before using this product.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Uniformly spray 3 - 3 3/4 gallons per 1,000 square feet of soil surface undiluted (130 - 160 gallons per acre). Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 6 1/4 gallons per 1,000 square feet (270 gallons per acre).

Although this VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots, and therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

**CARE MUST BE TAKEN TO KEEP THIS HERBICIDE AWAY FROM DESIRABLE FLOWER BEDS, LAWNS, AND SHRUBS. DO NOT APPLY OVER ROOTS OF VALUABLE TREES OR WOODY ORNAMENTAL PLANTS. ONLY APPLY HERBICIDE OUTSIDE THE DRIPLINE OF TREES. AVOID SPRAY DRIFT TO DESIRABLE PLANTS.**

## Safety

Keep out of reach of children. For institutional and commercial use. **WARNING:** Causes substantial but temporary eye injury or skin irritation. Harmful if swallowed or absorbed through the skin. Do not get in eyes, skin, or on clothing. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals. Wear protective eyewear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

### FIRST AID:

#### IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

#### IF ON SKIN OR CLOTHING:

- Take off contaminated Clothing
- Rinse skin immediately with water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice

#### IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.

#### IF INHALED:

- Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **NOTE TO PHYSICIAN:** There is no specific antidote; if ingested do not induce emesis and take care to avoid aspiration of stomach contents during gastric lavage. Give a saline laxative and supportive therapy.
