

# WINNING HANDS<sup>®</sup> HAND SANITIZER

## Alcohol Based Gel Hand Sanitizer

Specially formulated to kill germs, this hand sanitizer contains ethyl alcohol which is proven effective against most common germs. With added moisturizers and conditioning agents, this sanitizer can be used as frequently as needed. New light-citrus scent helps encourage use. Evaporates quickly, making it perfect for use in healthcare, schools, and other public areas as part of a comprehensive hand hygiene program to help control the spread of infection. The CDC states, "alcohol-based hand rubs are recommended as an effective means to reduce the number of microorganisms on the skin, are fast acting and cause less skin irritation."

### Uses

- For use in a variety of public facilities including schools, daycare centers, hospitals, nursing homes, physician's offices, dental offices and clinics.

### Benefits

- Contains 62% ethyl alcohol for rapid, broad-spectrum germ kill.
- Contains special skin conditioners which leave skin smooth and silky.
- Neutral pH reduces potential for irritation.
- Leaves no sticky residue on the skin; evaporates completely.
- Fresh scent to encourage frequent use.
