

CLARIO™ FOAMING ALCOHOL INSTANT HAND SANITIZER

Ethanol Based Foaming Hand Sanitizer

Clario™ Foaming Alcohol Instant Hand Sanitizer kills 99.9% of germs in as little as 15 seconds and does not require water or towels. Thick, rich foam leaves your hands refreshed and moisturized. Perfect for use in healthcare, schools and other public areas as part of a comprehensive hand hygiene program. The CDC recommends the following: It is best to wash your hands with soap and clean running water for 20 seconds. However, if soap and clean water are not available, use an alcohol-based product on your hands. Alcohol-based hand rubs significantly reduce the number of germs on skin and are fast acting.

Uses

- Hand sanitizer to reduce microorganisms on the skin.
- Use this product when soap and water are not available.

Features

- Kills 99.99% of common germs that can cause disease.
- Fresh, smooth, conditioning foam ideal for daily use.
