Pacific's original Mini-Edger scrubber/polisher allows you clean tight areas that would otherwise be done by hand – or not at all! Choose from a wide range of optional brushes and pads to customize the Mini-Edger to your cleaning applications and various surface types.

At only 16 lbs. the Mini-Edger was designed specifically for cleaning corners, along baseboards and under fixtures. Accessory changes are a snap with the removal of a screw. The Mini-Edger comes standard with pad driver and Mal-Grit brush. Don't settle for imitations. Ask for the *original* Mini-Edger from Pacific.

Mini-Edger Features & Benefits

The sturdy Comfort Grip handle can be rotated and secured to allow the user to operate the Mini-Edger at the right angle needed to clean hard-to-reach areas.

Changing accessories to suit your cleaning applications is simple. Just remove a screw to change out brushes or the pad driver.

The base is constructed of epoxy-coated precision-cast aluminum for durability.

Using the pad driver with pads or bonnets, the Mini-Edger becomes a mini polisher for hard floors or a mini bonnet floor machine for spot cleaning of carpets.

The Mini-Edger is easy to operate. Just squeeze the trigger on the handle to activate the brush or pad.

The Mini-Edger has a three-prong 18-3 pigtail cord. Simply choose an extension cord length needed for the area you wish to clean.
