

Z210 Scrubber

Small, compact and easy to use!

Z210

The Z210 scrubber is ideal for cleaning small, congested areas. This compact unit is ultra quiet and provides the operator the option of cleaning anytime without disturbing the occupants in the facility.

This machine is designed to handle the toughest, deep cleaning tasks. The Z210 comes

equipped with two (2) maintenance-free lead acid batteries for reliable, productive cleaning.

The durable, polyethylene tank on the scrubber is impact resistant and warranted for 10 years and is designed to allow fast and easy access to the batteries and motor.

TECHNICAL SPECIFICATIONS

	Z210
Cleaning Width	20"
Squeegee Width	26"
Working Capacity	12,500 ft ² /hr.
Brush Diameter	2 x 10"
Brush rpm	340 rpm
Brush Pressure	51 lbs.
Brush Motor	0.54 hp.
Drive Type	Brush Assist
Vacuum Motor	0.6 hp.
Solution Tank	11 gal.
Recovery Tank	13.5 gal.
Power System	24V Battery
Power Source	Maint. Free Batteries 2x12V (100 ah-Lead Acid)
Charger	24V-12amp Lead Acid
Length	45"
Height	39"
Width w/o Squeegee	21"
Weight	181 lbs. w/out batteries / 205 lbs.

Z210 Features & Benefits

The solution tank fill opening is at the front of the tank at the right height to use a bucket for refilling when there is not a hose available.

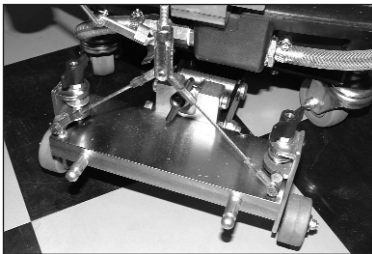

The Z210 features maintenance free batteries – no electrolyte ever needs to be added. The recovery tank can be lifted off and away from the unit to allow for wide open access when servicing the machine.

The heavy duty squeegee assembly can be quickly removed, no tools needed, by pulling on two latches. This makes transportation through doorways or in and out of vehicles a breeze. In addition, no tools are required when changing the blades from on of the four useable sides.

The scrubbing head is equipped with two rotating brushes. These can be adjusted for tilt and are lifted by a pedal for easy machine transport and brush change.

The pressure, angle and height of the squeegee can be easily adjusted. Two squeegee support wheels ensure smooth movement along the cleaning path

The Z210 console is simply and intuitively designed and able to hold chemicals, keys, cell phones or other items to keep operators organized.

The Z210 auto scrubber has a solution drain hose to allow the operator to easily remove all water from the solution tank and also acts as a sight hose to indicate the amount of solution in the tank.
