

BARRIER FLUID

Suppress malodors in urinals and floor drains.

Barrier Fluid is an oil-based liquid designed to float on top of liquid in a water free urinal cartridge, a flushing urinal well or in a floor drain. This liquid puts a physical barrier between a liquid and the atmosphere immediately sealing bad odors at the source. It contains a non-staining blue colorant which produces an aesthetic advantage in restrooms and adds an additional level of odor counteractant for high frequency restrooms. Betco Barrier Fluid also contains Neutrabond Technology which is a specially developed combination of malodor counteractants and fragrances that chemically bond to microscopic malodor particles neutralizing the malodor completely rather than just masking them. Barrier fluid is available in two (2) complimentary fragrances and a neutral non-fragranced version for those applications where additional fragrance is not wanted. Each case of barrier fluid comes with a proportioner with graduations for easy dispensing from quart bottles.

Uses

Designed for use where malodor is undesirable:

- Schools and Universities
- Office Buildings
- Manufacturing Facilities
- Hospitality
- Long Term Health Care
- Hospitals

Features

- Oil Based Blue Liquid
- Malodor Counteractants

Properties

Color Blue
 Fragrance Neutral, Ocean Breeze, or Citrus Bouquet
 Net Weight 32 oz./Qt. Bottle – 192 oz./Case
 Odor Counteractant Proprietary Blend
 Phosphates None
 Solubility in Water None
 Storage Stability Up to 140°F
 Shelf Life 1 year

Safety

Keep out of reach of children. For industrial and commercial use. **CAUTION:** Contains mineral oil. May cause eye irritation. **FIRST AID:** EYES: Flush eyes with water. If irritation persists, seek medical attention. SKIN: Wash with soap and water. **INGESTION:** Do not induce vomiting. Contact a physician. **INHALATION:** Remove to fresh air. Contact a physician.

Directions For Use

Read the entire label before using this product.

WATER FREE URINALS: Pour required amount of Barrier Fluid into the replacement Water Free Urinal Cartridge. Follow the manufacturer's instruction when adding barrier fluid. See chart for fluid ounces.

Water Free Urinal Make	Fluid Ounces	Fluid Replacement Cycle
Sloan®/Falcon® (all models)	2 fl.oz.	7,000 uses
Zurn® (all models)	3 fl.oz.	3,000 uses
Waterless (all models)	3 fl.oz.	1,500 uses
Kohler® (all models)	3 fl.oz.	Every 2 weeks
American Standard®/ZeroFlush® (all models)	12 fl.oz.	15,000 uses

FLOOR DRAINS: Pour the required amount of Barrier Fluid based on the pipe diameter in the chart below. Replacement fluid cycle varies depending on use and odor. Typically fluid should be replenished every 2 weeks.

Floor Drain Pipe Size	Fluid Ounces
1½" to 2" Diameter	3 fl.oz.
3" to 4" Diameter	6 fl.oz.
