

SPIN-VAC

Duplex carpet washers and many other counter-rotating brush systems require low-moisture cleaning agents with a crystalline residue for subsequent vacuum removal. Spin-Vac provides all this and more. Safe for wool and stain resistant carpets. No sticky or particulate residues that can attract soils and build-up. Neutral pH cleaning without streaking, splotching, over wetting or chance of reoccurring spots. A superior crystal structure, which upon drying, imparts non-stick qualities for swift release when vacuumed. Fresh lemon scent.

Directions:

Each gallon makes up to 16 gallons of ready-to-use Spin-Vac for up to 16,000 sq. ft. of cleaning. Each case of 4 gallons makes up to 64 gallons ready-to-use Spin-Vac for up to 64,000 sq. ft. of cleaning. Cleaning speeds up to 8,000 sq. ft. per hour. Total cleaning cost at less than 1/2 cent per sq. ft. Economically priced per case comparing to almost 1/2 the cost of similar products. Mix 8 ounces of Spin-Vac per gallon of water. Apply with a non-atomizing sprayer evenly across the carpet in areas small enough to scrub without drying. (200-400 sq. ft.). Scrub with carpet washer. Vacuum when dry or next interim cycle.

HAZARD WARNING: Eye and skin irritant.

PRECAUTIONS: Wear eye and skin protection.

FIRST AID: Contact – Flush with water.
Inhalation – Remove to fresh air. Get medical help.

READ SAFETY DATA SHEET BEFORE USE.

KEEP OUT OF REACH OF CHILDREN.

DO NOT REUSE THIS CONTAINER.

Appearance.....	Clear liquid
Odor.....	Lemon
pH.....	7.0
Specific Gravity.....	1.03 (H2O=1.0)
Dilution.....	8 oz. per gallon (1:16)
Freeze/Thaw.....	Will recover
Packaging.....	12/8 oz., 4/1 gal., 5 gal.
Storage.....	Store in closed containers away from open flame or heat
